Selling direct since 2017.

Opening wholesale now.

Hudson Valley Botanicals is an owner-run company in Poughkeepsie, New York, and Garuda Kratom is our brand. We have sold it direct to customers since 2017, so we know which strains people come back for.

Now we are opening wholesale to independent shops: smoke and vape shops, convenience stores, kava bars, and natural food shops.

We keep it plain. Traditional strain names, single-ingredient leaf, a published lab report for every batch, and terms that fit on one page.

Built for shops that *get asked questions.*

Customers ask what is in the pouch and whether it was tested. Everything here is set up so you have the answer.

Leaf only

Single-ingredient kratom leaf. No 7-OH products, no concentrated extracts, and no proprietary blends.

Tested every batch

An independent ISO 17025 accredited lab checks alkaloids, heavy metals, and microbials. A batch that fails does not ship.
